

Terms and Conditions: Pareto Matching Donations Pareto Gives Back 2023

Christmas 2023 Campaign

Matching Commitment: Pareto pledges to match donations made by employees and the public during this fundraising campaign, up to a specified maximum amount.

Matching Limit: While we are committed to matching contributions, there is a predetermined cap on Pareto's total matching funds. In the event that the aggregate donations exceed this cap, Pareto will match contributions up to the set limit.

Donation Cap: Individual donations are subject to a maximum matching limit. Any single donation exceeding this cap will be matched up to the defined limit.

First-Come, First-Served Basis: Matching will be executed on a first-come, first-served basis. Once the total matching funds are fully utilised, further donations will not be matched.

Oversubscription: In the event that total donations surpass the available matching funds, Pareto will prioritise matching donations up to the defined limit, ensuring fair distribution.

Large Donations: While we appreciate all contributions, Pareto reserves the right to limit the matching amount for exceptionally large donations to ensure fairness and the sustainability of the matching program.

Matching Period: The matching program is effective for a specified period, as indicated on the fundraising web page. Donations made outside of this timeframe will not be eligible for matching.

Verification: All donations are subject to verification to prevent misuse or fraudulent activities. Pareto reserves the right to withhold matching funds in cases of suspected irregularities.

By participating in this fundraising campaign, donors acknowledge and accept these terms and conditions. Pareto is grateful for every contribution and is committed to maximising the positive impact of your generosity.
